A History of Anti-Semitism
Theodore Smith
11 – 12:30 p.m.| $18 | 41148
It is difficult to imagine another religious group that has endured so much consistent hatred across periods of history as the Jews, from antiquity through medieval times, the Renaissance into the 20th century's "Final Solution" and now the 21st century. What are the political, cultural and religious factors contributing to Anti-Semitism in all these eras? What is the result and consequence to Jew and non-Jew alike of these attitudes and policies? ***(Disclaimer: This is not a current events class.)***

Introduction to Estate Planning
Dan Baron
9 – 10:30 a.m. | $18 | 41149
Having a basic will does not avoid probate. While a will is an essential tool, it represents only one piece of a complete estate plan. A well-rounded plan should protect your family, your assets and your intentions — both during your lifetime and after. In this course, we will use real-life examples to explain the key components of effective estate planning, including the last will and testament, healthcare and financial powers of attorney, guardianship, family trust planning, HIPAA, a living will and executorship.

Walter Topp
11 – 12:30 p.m. | $18 | 41152

Founded at the junction of the lake and river, Cleveland's growth accelerated after the canal's completion in 1832, linking its port to the Ohio and Mississippi river systems. By the 1890s, Cleveland was a leading U.S. shipbuilding port. Today, it remains a major port with international sailings and a growing cruise ship industry.

THURSDAY, MAY 13, 2027

Adding Lighting to Your Landscaping
Jeffrey Dross
11 – 12:30 p.m. | $18 | 41150
It is often said that landscaping illuminated at night looks better than a yard lit by the midday sun. Why? Strategically creating shadows and determining what to illuminate — and what to leave in darkness — add mystery and interest to the property. We also know there are changes in the property's landscape lighting with the emerging growth of spring, the colorful deterioration in the fall and the barren reality of winter. By understanding the purpose of outdoor lighting and the tools available, you can learn to illuminate landscapes effectively.
