Veterinary Technology	67%	78%	90%	74%	95%	72%	86%	74%

¹ National rates are provided for both the first and second 6 months of the year. Students may have taken the test in both parts of the year. Tri-C rates include those who passed on their first attempt, or within one-year of their first attempt.

² Based on up to 3 attempts

³ This program's percentages represent the average test score, not the pass rate.

⁴ 2021 figures based on currently available data and are subject to change

⁵ No Nuclear Medicine graduates have taken the ARRT certification since 2018.

⁶ The National Credentialing Body for Polysomnography no longer provides National pass rates and Tri-C students have moved to the Electronuerodiagnostic Technology program
Updated March 2022
