and Traditions**
with Alia Almashni

Cultural misconceptions and misunderstandings can affect relationships and communities. A lack of cross-cultural experiences, coupled with a lack of cultural sensitivity, can be attributed to an overemphasis on one's own culture or an underestimation of the importance of other cultures.

**Join Alia Almashni in discovering the uniqueness
and importance of various Hispanic countries.**

This lecture will familiarize you with a variety of customs through a mix of dance, music, language and culinary traditions.
