Why Choose Corporate College?

Blended Learning:

Our courses are a seamless blend of face-to-face sessions, on line instruction and individual coaching; reducing time away from the office, while ensuring that each participant is engaged and has the support and resources needed to successfully earn their Lean Six Sigma Certificate. (1 year subscription to MiniTab included with Black Belt registration).

Flexible Courses:

Corporate College Lean Six Sigma Program is structured to allow all participants to gain a consistent stream of knowledge for all levels of certification. Courses progress from Yellow Belt to Black Belt, providing increased flexibility to meet the training needs of the entire organization.

Project Based Classes:

A College approved Lean Six Sigma project is a requirement for Green and Black Belt certification. Participants are strongly encouraged to identify a Lean Six Sigma project that will provide a positive business impact to your organization. Most projects will be required to realize the financial impact to the organization.

Our Instructor:

Tom Fazekas, our LSS instructor is a Master Black Belt with 25 years of experience teaching and consulting in LSS and Continuous improvement for students and organizations throughout NE Ohio

Learning Environment:

Corporate College provides state-of-the-art facilities, free parking and lunch is provided for all classroom sessions. Our elearning environment is engaging, interactive, and user friendly with enhanced compatibility for all operating systems. Participants will need access to a laptop for classroom sessions, if you are unable to gain access to a laptop please contact the Lean Six Sigma Program Manager.
