

# Cuyahoga Community College

## Alumni Spotlight: *Michelle Neumeyer*

**M**ichelle Neumeyer took classes at the Western Campus, majoring in Diagnostic Medical Sonography and graduating in 2006. She is currently employed full-time at Aultman Hospital in Canton and PRN at University Hospitals in Cleveland.

***What made you decide to attend Tri-C?***

Many reasons! Tri-C is one of the few schools in our area that offers an ultrasound program, but the affordability and flexibility made Tri-C the obvious choice. I took evening, weekend, and Internet classes, which worked wonderfully for my family and allowed me to keep my part-time job until I started clinical training.

***What are your best memories of Tri-C?***

The wonderful instructors and the friends I made.

***How did Tri-C prepare you for the workforce?*** Many aspects of my education at Tri-C prepared me for the workforce. First and foremost was the clinical training experience; I worked with experienced sonographers at the Cleveland Clinic and UH. There is no substitute for that kind of training. I'm thankful for the partnerships

Tri-C has with such wonderful institutions. Career-focused training and excellent coursework were also extremely beneficial.

***Have you (or do you plan to) come back to Tri-C since you graduated?*** For what? I did make it back to campus to attend the Alumni Focus Group meeting. I also plan to start taking classes again next year to continue working on a B.S. in Biology. (I think I'll be a student forever!)

***What inspired you to donate to the Tri-C Foundation Scholarship Fund?***

I remember opening the envelope and reading the award letter when I received my scholarship from the Foundation. I was so excited...and relieved! I could just relax and focus on my classes. Someone else's generosity had a huge impact on my life, so I want to "pay it forward".

***What advice would you give to the recent graduating class of Tri-C students?*** Rest assured! Tri-C has prepared you for your new career!
