New mini-grant submissions are now being accepted for Career Technical focused initiative through the college-wide Carl Perkins Grant.

- Want to buy state of the art equipment?
- Want to provide hands on training for your students?
- Want to assess your students’ skills?
- Want to attract more students to your program?
- Have an idea to get students to completion?

Submit your proposal today!

**Fiscal Year 2016** will be the second roll out of mini-grant awards to College departments and/or academic programs that present the best innovative strategies to serve career technical education (CTE) students according to the Carl Perkins Act.

The selected departments/academic programs will effectively demonstrate how the proposed activity will successfully achieve one or more of the following objectives in serving CTE students (this is a requirement):

- Identify and communicate with a population of CTE students to provide success strategies
- Strengthen a particular aspect of an existing program or service
- Implement a new program or service to promote success among students
- Provide a referral service to link students to success strategies
- Provide a program or process to prepare students for CTE careers
- Provide a structured pipeline and coordinated efforts to connect the proposed strategy with CTE jobs in high demand in the Cleveland metropolitan area

**Note:** Perkins funds cannot be used to replace funding for a project or service that is already established. Only new projects or services will be considered.
