ARE YOU
• Age 50 and over?
• Thinking about enrolling in college?
• Looking for a career change?
• Unemployed and looking to upgrade your skills?

Job market competition is fierce. Completing a degree or certificate is the key to opening new doors and distinguishing yourself from others.

Tri-C can help you gain the skills and credentials you need for jobs in our area. Pave the way to opportunities for new jobs and career advancement today!

Child Development Short-Term Certificate
The Child Development short-term certificate offers you with a specialized comprehensive focus on preparation of applying for the Child Development Associate Credential. The three semester program provides you with a broader understanding of child development, critical thinking skills, and practice through field experience. A graduate of this certificate program can expect to earn $17,000 to $21,000 depending on the setting.

Medical Billing Specialist Short-Term Certificate
The Medical Billing Specialist certificate is a two-semester program that will prepare you for employment in physician’s offices, medical insurance companies, and outpatient billing services. Medical Billing specialists typically earn $24,000 to $29,000 to start based upon previous experience.

Medical Information Office Assistant
The 15-week Medical Information Office Assistant program is designed for persons with existing technical background who wish to pursue a career in electronic medical records implementation and support in an entry-level position. Medical Information Office assistants can earn $25,000 to $35,000 or more to start depending upon prior job-related experience.

Conflict Resolution and Peace Studies Certificate
Knowing how to manage and resolve conflict is essential for having a productive work life, as well as for community and family life. This three month certificate will provide you with the theory and skills of conflict resolution and techniques to implement this knowledge in the community or your place of employment. Depending upon the setting you can expect to earn $35,000 to $45,000.

Network Support Specialist
The Network Support Specialist training program is designed using a progressive career ladder framework resulting in three national industry-recognized credentials: CompTIA A+ Certified Technician, CISCO Certified Network Associate, and CISCO Certified Network Associate Wireless. Skills and certifications acquired during the 17-week program and training will build capacity toward multiple professional competencies. You may be able to earn $30,000 to $50,000 or more to start depending upon prior job-related experience.
