

3354:1-20-04 Policy on Health, Safety, and the Environment

- (A) Cuyahoga Community College (the “College”) is committed to protecting the environment it shares, and the health and safety of all members of the College community. The College shall:
- (1) Establish and implement detailed procedures intended to honor its commitment to protecting health, safety, and the environment. Any student, College employee, contractor, and/or visitor must adhere to these procedures and will be subject to disciplinary action or ejection in accordance with applicable College rules.
 - (2) Monitor and comply with the extensive environmental, health, and safety laws and regulations that apply to the College.
 - (3) Develop and implement training and prevention programs to help minimize environmental, health, and safety risks.
 - (4) Identify employees who will be responsible for environmental, health, and safety issues; and take steps to inform the College community how to report incidents and concerns to these employees.
 - (5) Develop and implement appropriate remedial measures, should an environmental, health, or safety incident become known to the College.
 - (6) Communicate and coordinate with local authorities, as appropriate.
- (B) The President or the President's designee is hereby directed to take all steps necessary and appropriate for the implementation of this policy.

Effective Date: June 4, 2025

Prior Effective Date: December 15, 2005
