

Daniel J. Weiland, BS

Tutor, Developmental Education and Learning Services

Daniel J. Weiland serves as a tutor in human Anatomy and Physiology, Radiographic Imaging, Human Biology and Health in Developmental Education and Learning Services at the Western Campus of Cuyahoga Community College (TRI-C) where he has been employed since 2002.

Daniel earned a Bachelor of Science degree in Biology from Baldwin Wallace University. He has authored a book (What On Earth Are We Doing?) on environmental degradation and written several articles on rainforest ecology and deforestation.

Speech Topic:

Category: Agriculture / The Environment

- **In-Depth Study of the Amazon Rainforest, Andes Cloud Forest and/or Galapagos Islands:** Daniel presents one of two slide, video and lecture tours of the Amazon Rainforest and Andes Cloud Forest regions and/or the Galapagos Islands. Daniel has made presentations for audiences of all types and ages, ranging from adult civic groups to elementary, intermediate and high school students. He has also given the various presentations before the Regional Council of High School Science Teachers held at the Cleveland Zoo and received a great deal of positive response and invitations for subsequent engagements.
