Add a Mediasite Video in Brightspace

Mediasite in Brightspace is available to add videos for your students. Videos are great to introduce yourself and the course or to post short lectures for students. You have two options to add a video.
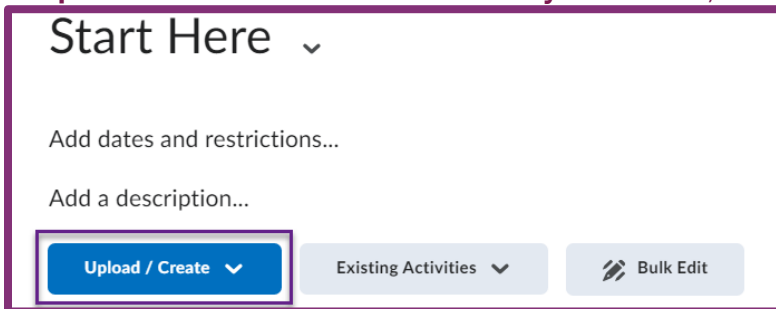

You can use the Upload/Create to use the Brightspace Editor with the Insert Stuff button. Use this method if you want to include additional content with the video and/or if you want to embed the video within Brightspace. If the video is embedded, students don't have to navigate back to the Brightspace tab in their browser.

You can use Existing Activities to add a video link and the description that you added for the video in Mediasite with no additional content. Students will need to navigate back to the Brightspace tab in their browser after watching the video.

## 1. How to add a Mediasite Video in Brightspace using Upload/Create

### Step 1: In the course and module you desire, select Upload/Create.

Step 2: Select Create a File.

### Step 3: Enter a file title (1) and select the Insert Stuff button (2).
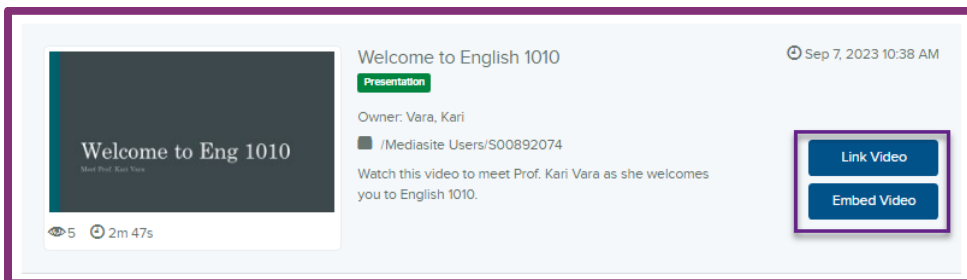

Step 4: Select Mediasite Link.

Step 5: Locate the desired Mediasite Video. You have four options:

1. Type a search term and select the magnifying glass.
2. Page through your Mediasite videos.
3. Sort or Filter your Mediasite videos.
4. Scroll through your Mediasite videos. (not pictured)

Step 6: Select Link Video or Embed Video.

Linking the video displays an external link with the video description from Mediasite. When embedding the video, students click to open a page within Brightspace where they can play the video.

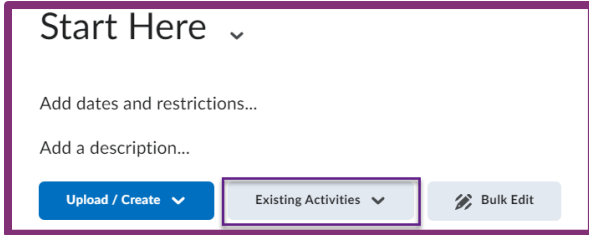

Step 7: Select Insert.

Step 8: Complete the process.

Once you insert the Mediasite video into the Brightspace Editor, you can add any additional content you want to include. When you are finished, select Save and Close.
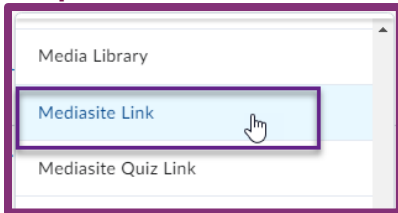

2. How to add a Mediasite Video in Brightspace using Existing Activities

**Step 1: In the course and module you desire, select Existing Activities.**
