Interactivity by WeVideo is used to embed activities to transform a passive video into an active and gradable experience for your students.

## Add an Interactivity link in Brightspace

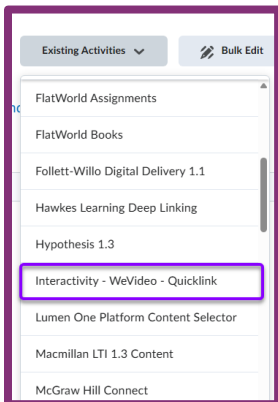

Please complete the following steps to create an Interactivity link in Brightspace. You can choose to connect to Mediasite or a YouTube video.

**Step 1: In the course and module you desire, select Existing Activities.**

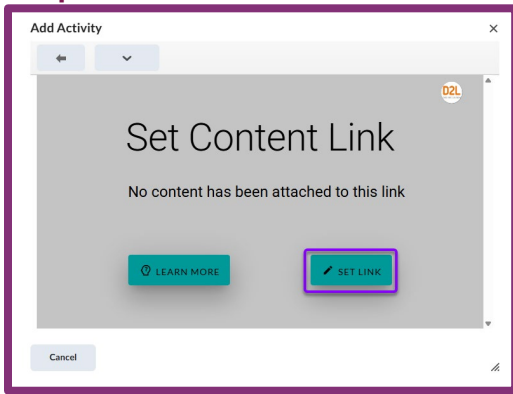

**Step 2: Select Interactivity – WeVideo – Quicklink.**

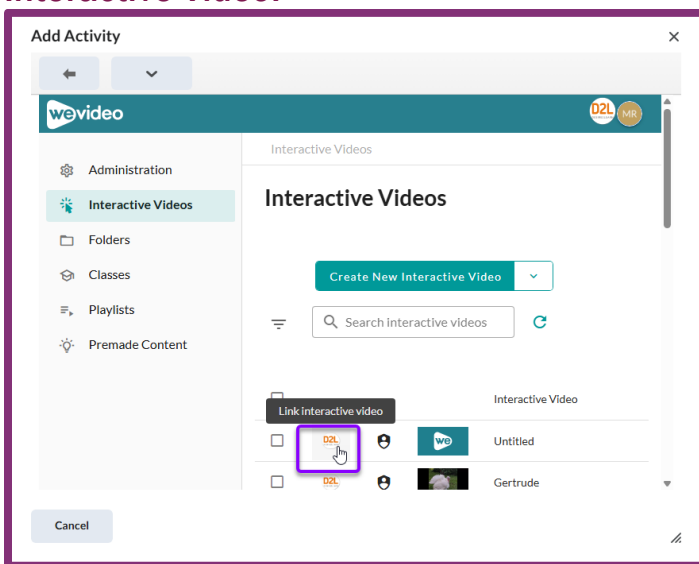

You can scroll down or expand the box to show all your Interactive Videos [formally Bulbs].

### Step 3: Select Set Link.

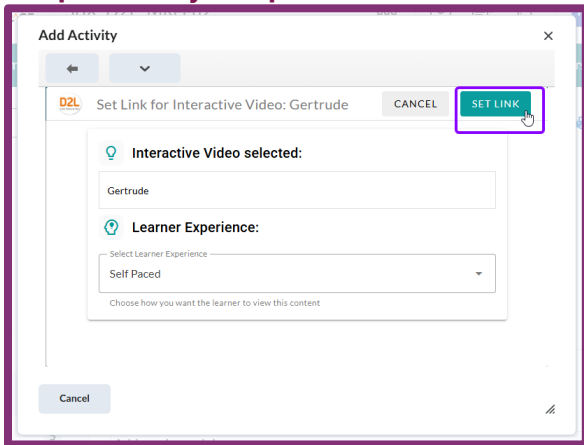

### Step 4: Create a new Interactive Video or select the D2L circle of an existing one to link Interactive Video.

### Step 5: Select the pop-up Link option.

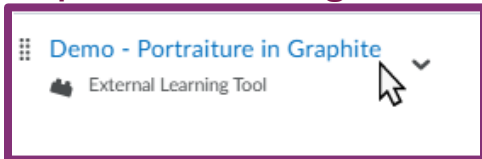

## Step 6: Set your parameters and select Set Link.

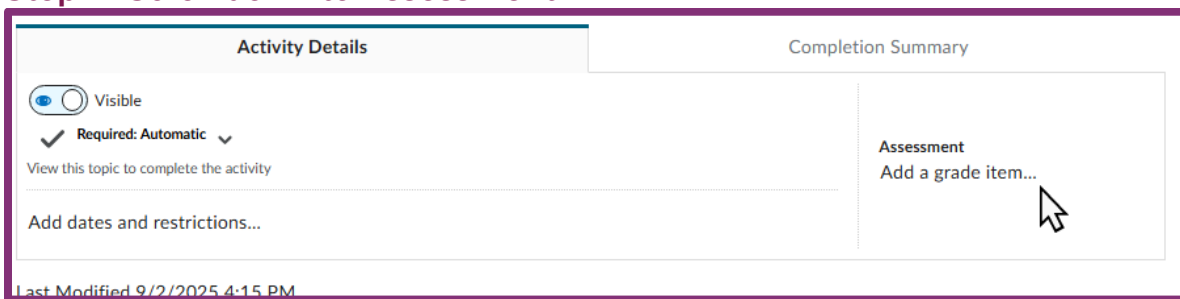

## Sync new Interactivity by WeVideo links to the Brightspace Gradebook

An Interactivity by WeVideo does not automatically create a gradebook entry upon creation of the content item but rather creates the entry in the gradebook once a student has interacted with the content item. To have this gradebook entry created prior to a student interaction, please complete the following steps for each newly created Interactivity link in Brightspace to activate the Brightspace gradebook entry. If a student has interacted with the Interactivity, the gradebook entry will have been created automatically, and you may adjust the point value if needed.

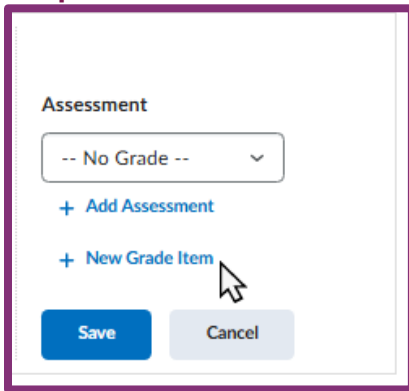

### Step 1: After creating the Interactivity, select the title to open the content item.

### Step 2: Scroll down to Assessment.

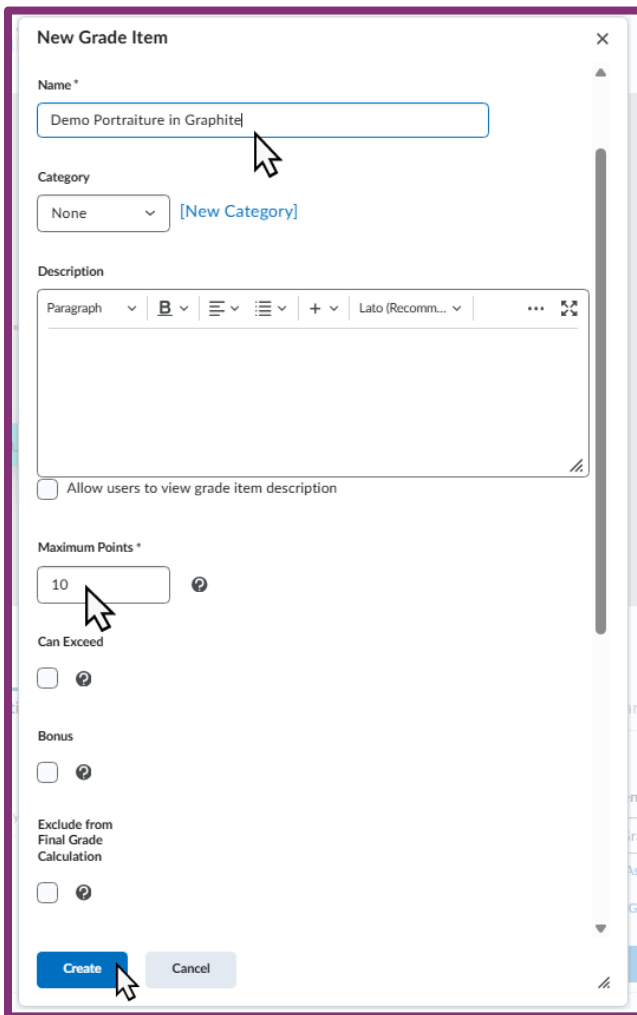

### Step 3: Select + New Grade Item.

A screenshot of a software interface showing a dropdown menu for 'Assessment'. The menu is open, displaying the option '-- No Grade --' with a downward arrow. Below the dropdown are two blue links: '+ Add Assessment' and '+ New Grade Item'. At the bottom of the menu are two buttons: a blue 'Save' button and a light gray 'Cancel' button. A mouse cursor is pointing at the '+ New Grade Item' link.

### Step 3: Enter a Name for the Grade item, enter the desired point value, and select Create.

You can also choose to exclude it from the final grade calculation.

A screenshot of a 'New Grade Item' form. The form has a title bar 'New Grade Item' with a close button. It contains several fields and options: 'Name\*' with a text input field containing 'Demo Portraiture in Graphite'; 'Category' with a dropdown set to 'None' and a link '[New Category]'; 'Description' with a rich text editor showing 'Paragraph' and various formatting icons; a checkbox 'Allow users to view grade item description' which is unchecked; 'Maximum Points\*' with a text input field containing '10'; a checkbox 'Can Exceed' which is unchecked; a checkbox 'Bonus' which is unchecked; and a checkbox 'Exclude from Final Grade Calculation' which is unchecked. At the bottom are two buttons: a blue 'Create' button and a light gray 'Cancel' button. A mouse cursor is pointing at the 'Create' button.

# Migrating PlayPosit Links to WeVideo Links in Brightspace

---

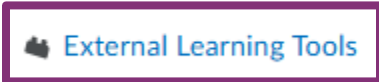

Please complete the following steps for each course and sandbox site that contain PlayPosit links. These actions apply at the course level, so you do not need to update each individual link within the course content area.

**Step 1: Navigate to the Brightspace course that you wish to migrate your PlayPosit links to WeVideo links.**

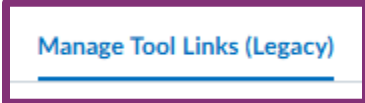

**Step 2: Select Course Admin.**

**Step 3: Select External Learning Tools.**

**Step 4: Select Manage Tool Links (Legacy).**

**Step 5: Select Migrate and confirm with Yes.**

**Step 6: You can select Migration Log at the top to monitor the status if you would like.**

All PlayPosit links and related grade columns within this course have now been migrated to WeVideo and should need no further action. Please repeat for each course that still has existing PlayPosit links.
