

TRI-C Adding Follett Tool/Pearson Course Materials and MyLab|Mastering Course FALL 2026

In D2L/Brightspace, go to **Content**:

Add a Module (you may name this whatever you'd like, but you may want to consider naming it Pearson MyLab/Mastering):

Once you've created the Module, Click on **Existing Activities** and scroll to the bottom to select **Willo 1.3 Deep Link**:

Click **Continue in a new window**:

Click **Add Links (3)**:

Course Management

Course Details **Add Course Links** Convert Course Links

Add Course Links

Add the appropriate links below to give students access to their materials and support resources.

Course Links

Add a course support link to provide easy access to materials and assistance.

☒	Title	Description
☒	Follett Access Support Recommended	Include the Follett Access support link to your course so students can find and access support if they need it.
☒	Instructor Self Service	Gives instructor access to self-service tools to manage their connection and accessing publisher platforms. Optional for instructors who want direct access.
☒	Pearson Course Materials	Publisher Link

Add Links (3)

Click **Close window**:

✓ Link Selection Complete

Your links were successfully sent to the LMS. Please close this window and return to your LMS.

Close window

You will see all three links in the Module – you may arrange them in any order you'd like and hide the Instructor Self Service link from students (Hide from Users):

To link your MyLab or Mastering course, click on **Pearson Course Materials**:

On the next screen you will see several options. If you have a Course ID to copy, please select **Create a copy of a course**:

Pearson

Pair a MyLab or Mastering and LMS course

Pair the course materials provided to you.

Select

Prealgebra, 6th Edition 6th Edition

Textbook: Prealgebra, 6th Edition
Author(s): Lial, Margaret | Hestwood, Diana
Discipline(s): Mathematics
Textbook ISBN-13: 9780134539805
