Thurs., March 12 | 6 - 7:30 p.m.  
Campus Center 10

* Registration begins at 5:30 p.m.

The College Credit Plus allows Ohio high school students to earn both high school credit and college credit through the successful completion of college courses at Cuyahoga Community College (Tri-C”).

Qualified students can take a single course or enroll in a full-time schedule at Tri-C all while working toward their high school diploma.

College Credit Plus students work closely with their guidance counselor to create a schedule that assures they meet their high school graduation requirements as well as their individual goals. Many of these classes at Tri-C are TAG (Transfer Assurance Guide) courses, which carry the guarantee that credits will transfer to any of Ohio’s public institutions of higher education.

So, if you’d like to take a college course or two that can count towards high school credit as well as give you a jump on earning college credit, come and learn more at one of our upcoming College Credit Plus Information Nights.

RSVP online at [www.tri-c.edu/college-credit-plus](http://www.tri-c.edu/college-credit-plus)
