

EARTH DAY

Earth Day is dedicated to inspiring awareness and appreciation for protecting health and the environment.

APRIL 16-19, 2018

#EarthDayEveryDay

GLOBAL CLIMATE CHANGE **How Does it Affect Your Health?**

Monday, April 16, 11 a.m.-noon
Auditorium (ESS 2401)

Presented by Dr. Nikita Habermehl, Pediatric Resident at UH Rainbow Babies and Children's Hospital. Event will be streamed live from the Metropolitan Campus.

ART CONTEST

April 16-19, 9 a.m.-4 p.m.
President's Plaza

A poster exhibition and contest by Visual Communication and Design students showing their creative representations of what sustainability means to them.

FILM SCREENING AND DISCUSSION ***Earth: The Operator's Manual***

Tuesday, April 17, 2-3:15 p.m.
Auditorium (ESS 2401)

Take a high-definition trip around the globe – from New Zealand to New Orleans – to learn the story of Earth's climate history and our relationship with fossil fuels, as well as what sustainable solutions are available for a healthier planet.

POETRY AND PROSE

Wednesday, April 18, 11 a.m.-noon
President's Plaza (ESS 2nd floor)

Read your favorite poem or short prose piece – yours or another author's – about nature or the environment.

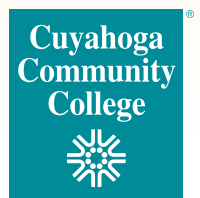

HONORS PANEL DISCUSSION **Do You Want to Save the Planet?**

Thursday, April 19, 2:30-4 p.m.
EMHC 240

Have you ever considered a career that would allow you to save the planet? Join us for a panel discussion with industry experts Kathy Rocco (Cuyahoga County Solid Waste District), Valerie Garrett (Dovetail Solar and Wind) and Daniel Brown (Rust Belt Riders) to learn how your career choice can lead to a healthier planet.
