### Resumes That Get Results

June 2nd @ 11am

### Leveraging LinkedIn

June 3rd @ 11am

### Ace That Virtual Interview

June 4th @ 11am

All workshops are being hosted through [Webex](#).

## Online Job Board

## Student Spotlight - Roselys Contreras

I immigrated from the Dominican Republic and have lived in the United States for almost four years now.

Leaving almost all our family in the Dominican Republic, my brother and I began our journey. Coming to the United States was a very hard process. I did not know anyone, and I could not speak the language.

Everything started to change when I began attending Cuyahoga Community College as an English As a Second Language student in 2017. Since my first semester in college, I had the privilege to be on the Dean's Honor List of the College for earning a 3.5 or higher GPA while being enrolled as a full-time student.

Tri-C has opened many doors for me. It has taken me to places I never thought I would be; I have met people that I never thought I would meet like the president of Starbucks.

Through its amazing internship program, I also got my current job at the Parma Area Chamber of Commerce, which is helping me to get experience in my field of study, International Business.

As I move on to Cleveland State University this Spring, I could not be more confident and grateful to Tri-C for giving me all the tools and skills I need to succeed. Tri-C has always been and would always be my other home.

Tri-C was where my future began!

## Student Spotlight - Ibrahim Sackey

Cuyahoga Community College (Tri-C®) student Ibrahim Sackey has been named a Student Technology Champion by the League for Innovation in the Community College.

The first-generation college student is set to graduate from Tri-C this spring with an Associate of Applied Business degree in information technology with a concentration in networking software. He has already earned 10 professional certificates.

While at Tri-C, he served as president of the Information Technology Career Advancement Club and - with his 3.95 GPA - joined Phi Theta Kappa Honor Society. He

College Central Network is the Career Center's official online job board. More than 100 employers and opportunities are looking to hire Tri-C students and alumni.

is also a Jack, Joseph and Morton Mandel Scholar at the College.  
A biography posted by the League for Innovation notes that Sackey balances a full-time class load with a part-time job to support himself and assist his mother with household expenses. He lives in Cleveland Heights.

Sackey received a \$2,500 scholarship as part of the technology award. He intends to transfer to a four-year school after graduating from Tri-C to pursue a bachelor's degree in network operations and security.
