

APPENDIX III

Ohio Transfer Initiatives

The State of Ohio through the leadership of the Ohio Board of Regents has established a coherent statewide policy intended to facilitate a student’s ability to complete their highest level of educational goal achievement seamlessly within Ohio’s postsecondary educational system. To that end, the Ohio Articulation and Transfer policy <http://regents.ohio.gov/transfer/policy/index.php> was developed to facilitate the transfer of students and credits from any state-assisted college or university to another. It encourages faculty recognition of comparable and compatible learning experiences and expectations across institutions. It also encourages students to complete “units” of educational experience as they progress [e.g. transfer assurance guides, transfer modules, associate and baccalaureate degrees]

Transfer Assurance Guides

Statewide Transfer Assurance Guides (TAGs) are composed of General Education Courses (Transfer Module courses) and specified courses required for the academic major. A TAG as an advising tool can assist Ohio college and college bound *students* planning specific majors to make course selections that will ensure comparable, compatible, and equivalent learning experiences across the state’s higher-education system. TAGs apply across, at least, all public higher education institutions in Ohio and embody commonly accepted pathways to majors within the Bachelor’s degree. TAG approved courses are assigned

an Ohio Articulated Number (OAN) and are accepted and applied to the major at all Ohio public colleges and universities. Thirty-Eight major specific TAG pathways in the arts, humanities, business, communication, education, health, mathematics, science, engineering, engineering technologies, and the social sciences have been developed by faculty teams. Additional information on specific Transfer Assurance Guides can be found on the Ohio Board of Regents Web site .

<http://regents.ohio.gov/transfer/tags/index.php>

TAGs enable students to make informed course selection decisions and plans for their future transfer. Advisors at the institution to which a student wishes to transfer should also be consulted during the transfer process.. Because of specific major requirements, early identification of the intended major is encouraged.

Ohio Articulation Number (OAN)

Pre-major courses that represent the commonly accepted pathway to majors within the Bachelor’s degree (TAGs) have been reviewed by statewide faculty committees. Courses or course sequences meeting established Learning Outcome standards are assigned a discipline specific Ohio Articulation Numbers (OANs). When consensus is established and a course is noted with both the colleges or universities departmental designation and the assigned Ohio Articulation Number (OAN), students are assured not only of the equivalency of the courses, but of their application to the degree objective. A complete listing of Cuyahoga Community Colleges OAN approved courses can be found at
