

# COMMUNITY EDUCATION

*Learn something new —  
and have fun doing it!*

Believing that learning should and does continue throughout life, Cuyahoga Community College (Tri-C®) offers a wide range of affordable and convenient community education courses.

## Culinary

A variety of hands-on and demo culinary classes are available for all skill levels. Most classes are 2 hours and 30 minutes and cost \$49. Classes are held in a state-of-the-art teaching kitchen at Eastern Campus in Highland Hills.

## Digital Photography

Classes are designed around the DSLR (digital single-lens reflex) and mirrorless cameras and lenses. Each of the four digital photography starter courses is 3 hours long, with a fee of \$49.95 per class. Bring your camera to class. For best results, these classes should be taken in succession.

Advanced digital photography courses covering Adobe Lightroom, Adobe Photoshop and sports photography are also available.

## General Interest

Tri-C offers a variety of courses designed to help you explore the community and learn more about yourself.

## Summer Camps

Summer camps are designed for children ages 4-18. Whether your child is a young performer or budding engineer, our summer camps will help them discover their passions and talents.
