Certificate	CAPM	PMP	PMI-ACP
	Certified Associate in Project Management	Project Management Professional	PMI Agile Certified Practitioner
Description	The CAPM demonstrates your understanding of the fundamental knowledge, terminology and processes of effective project management.	The PMP is the gold standard of project management certification. Recognized and demanded by organizations worldwide, the PMP validates your competence to perform in the role of a project manager, leading and directing projects and teams.	Created for those who believe in and apply agile principles and practices on projects. It requires a combination of training, experience and an exam. It also bridges agile approaches such as SCRUM, XP, LEAN and Kanban.
Pre-Requisites	<ul style="list-style-type: none"> • Secondary degree (high school diploma, associate's degree or the global equivalent) • 23 hours of project management education completed by the time you sit for the exam. <i>(our course meets this requirement)</i> 	<ul style="list-style-type: none"> • High school diploma or an associate's degree (or global equivalent) • 60 months of project management experience • 35 hours of project management education OR CAPM certification <i>(our course meets this requirement)</i> <p style="text-align: center;">-OR-</p> <ul style="list-style-type: none"> • Four-year degree • 36 months of project management experience within last 8 years • 35 hours of project management education OR CAPM certification <i>(our course meets this requirement)</i> 	<ul style="list-style-type: none"> • Secondary degree • 21 contact hours of training in agile practices <i>(our course meets this requirement)</i> • 12 months of general project experience within the last 5 years.
