

3354:1-50-01 Health and wellness policy.

- (A) The College shall encourage an environment and culture that promotes the mental, social, environmental, and spiritual well being of students, faculty, and staff. The College shall operate a health and wellness program with fitness centers and health and wellness centers. These centers shall provide students, faculty, and staff, and community members as appropriate, with programs, information, and activities.
- (B) The College shall not assume responsibility for providing primary physicians' services for employees or students, except as necessary to control communicable diseases on the campuses or otherwise to protect health or welfare on an urgent basis.
- (C) The President or the President's designee is hereby directed to take all steps necessary and appropriate for the implementation of this policy.

Effective Date: April 28, 2005
