Abidjan is life where I am from. Where I am from, we grow peaches near the sea. Where I am from lack of work. Where I am from, it is like nice Country. Where I am from, eat, dance and sing are life. We are reading books of stories where I am from. The kids are wearing T-shirts, jumpers, and pants where I am from. Where I am from people are wearing pants, T-shirts, and ties. Where I am from people are happy. Where I am from people work. Where I am from people think about our country development.
