

Where I'm From

By Amina Temeiza

I am from Palestine. My city is Hebron. This is very beautiful in the spring and summer. It is calm. The springtime blooms flowers, vegetables, fruits, grapes, figs, and watermelons. Everyone is healthy. A land of vegetables. People there do work and also park trips and barbecue. They work, swim, play in the summer and spring. They take care of themselves as well.

Then I went to live in America. I came to visit my sister for her engagement and marriage.

I want in future to be a truck driver and garment worker and Hairdresser. The place I want to go to is New York and France. I hope my future looks like a lot of work taking care of children. My dream job is pediatric nurse and babysitter.
