My Life

I would like to tell a short story about my life I am from Ukraine. I came over here almost two years ago, when I was twenty-five years old. I decided to change my life, because I didn't feel myself good in my native country. In my country, if you don't have a lot of money or rich relatives, you can't find a new job. It's unfair. I like in the United States, you can do everything for better life. If you have a desire to study and believe in your success, you can do it. When I came here, I had awful English, and I can't understand easily words. After one year, I started to feel better in English. Also, I have a full-time job. I do online-listings on the different sites. There are items for children, for home, for parts, for kitchen, and others. I work from 8 a.m. to 5 p. m, and after work I have ESL classes. I really like this college. There are very good teachers and classmates. I'm studying, because I want to be a nurse in future. I'm planning to take nursing program, after I finish my English classes. I think, it's job will be good for me, because I like to help other people. I understand, the study costs a lot of money, and I don't know how I can do that, but I believe, if a person has a desire, the Universe will throw her such an opportunity. Also, I dream of peace in Ukraine. I can't believe in a war in my native country. Many thousands of people die, and situation is very hard. I can't concentrate for important things for me. All the time, I am thinking about my mother. She is in Ukraine and I can't help her. I dream, she will be with me in future. I missed for her. In addition, I dream for a lovely family, which I didn't have in my childhood. Also, I hope, I can travel in the future, because there are many beautiful places, where I wasn't. As you can see, I have ordinary dreams, and I believe, I can make them in my future.
