

Where I'm From  
Iryna Dmytryshyn

I'm from Ukraine. I was born in small village. My village is beautiful, wonderful lake and park are in my village. People like to live in this village, it is quiet and big city is close to it. Many people in my village grow vegetables and fruits for their families, and some people sell them. I remember how fruit trees bloom in spring, buzzing bees, and wonderful smell of flowers. Now I want to be there with my family. Before I had many dreams. My childhood dream is play with a little tiger. I dreamed to get an education, start a family. But now I dream of ending the war. I really want the violence and abuse of my nation to end. I want those who guaranteed us peace and independence, when our weapons were taken away, finally began to act. Instead of watching how they destroy my country and killing people.
