

Where I'm From

By Tram Truong

I'm from Dong Thap province in Viet Nam. My country is important over there the, the house, the job So all people wear clothes , formal occasions school or the work choose clothes sometimes wear jeans ,t-shirt , pants ,vest, suit. The kids usually wear jumpers or t-shirts, and shorts. Also, my country the people sometimes go to zoo, go shopping, and go in the park. Outside always you hear car horn sounds, hear the people talking noise, on the street cars drive a lot.

I want to see some best places in wanderlust travel magazine. I usually smell food so great when I walk outside. I want to go to travel anywhere in my country and in America. I miss my family so much. I want my English so good. My dream, I can buy new house in the future I will make my life so good and I want to spend times with small family just my husband and my kids. I love them a lot because they are the sunshine in my life.
