

Cuyahoga Community College
Health Careers Clinical Compliancy ...fulfilling background checks and health requirements for allied health and nursing programs

MMR & Varicella Titer Immunization Requirements

MMR Measles Mumps Rubella Vaccine 20 ml
 Varicella Vaccine 0.5 ml

Welcome to the online support series for fulfilling background checks and health requirements for allied health and nursing programs at Tri-C. In this module, you will learn how to fulfill the Measles Mumps and Rubella (or MMR for short) and Varicella (also known as Chicken Pox) titer and immunization requirements.

Welcome to the online support series for fulfilling background checks and health requirements for allied health and nursing programs at Tri-C.

In this module, you will learn how to fulfill the Measles Mumps and Rubella or MMR for short and Varicella also known as Chicken Pox titer and immunization requirements.

MMR & Varicella Titer Immunization Requirements

MMR Measles Mumps Rubella Vaccine 20 ml
 Varicella Vaccine 0.5 ml

If your program requires MMR and Varicella, please listen carefully as it is crucial to follow the process as described to avoid clinical or admission delays.

If your program requires MMR and Varicella, please listen carefully as it is crucial to follow the process as described to avoid clinical or admission delays.

MMR & Varicella Titer Immunization Requirements

IgG
~~IgA or IgM~~

You MUST obtain a titer

An IgG titer is the first step in fulfilling the MMR or Varicella requirement. Please ensure you are obtaining an IgG and not an IgA or IgM. IgG demonstrates immunity where other titers demonstrate exposure to the disease. You MUST obtain a titer regardless if you have received your immunizations.

An IgG titer is the first step in fulfilling the MMR or Varicella requirement. Please ensure you are obtaining an IgG and not an IgA or IgM. IgG demonstrates immunity where other titers demonstrate exposure to the disease.

You MUST obtain a titer regardless if you have received your immunizations.

MMR & Varicella Titer Immunization Requirements

+ Immunity
- No Immunity
= No Immunity

A positive titer result indicates that you have immunity to that disease. A negative result shows you do not have immunity to that disease. Equivocal means that you are borderline. For the purpose of Tri-C health careers compliance, borderline is the same as negative or no immunity.

A positive titer result indicates that you have immunity to that disease.

A negative result shows you do not have immunity to that disease.

Equivocal means that you are borderline. For the purpose of Tri-C health careers compliance, borderline is the same as negative or no immunity.

MMR & Varicella Titer Immunization Requirements

A positive IgG titer...

No additional vaccines are necessary

A positive IgG titer result proves you meet the titer MMR and Varicella requirement. No additional vaccines are necessary with a positive IgG titer.

A positive IgG titer result proves you meet the Titer MMR & Varicella requirement.

No additional vaccines are necessary with a positive IgG titer.

MMR & Varicella Titer Immunization Requirements

If negative or equivocal, research your vaccination records

2 doses of each vaccine?

no additional vaccines are required

If negative or equivocal, you must then research your own vaccination records to determine if you have had two doses of EACH vaccine in your lifetime. If you have had two doses of each vaccine in your lifetime and can provide medically documented evidence of those vaccines, you will not need additional vaccines.

If negative or equivocal, you must then research your own vaccination records to determine if you have had two doses of EACH vaccine in your lifetime.

If you have had two doses of each vaccine in your lifetime **and** can provide medically documented evidence of those vaccines, you will not need additional vaccines.

MMR & Varicella Titer Immunization Requirements

If you have not received two doses of the MMR and Varicella vaccines in your lifetime... you must obtain the missing dose or doses.

If you have not received two doses of the MMR and Varicella vaccines in your lifetime or you cannot provide medically documented evidence to verify the vaccinations, you must obtain the missing dose or doses.

If you have not received two doses of the MMR and Varicella vaccines in your lifetime or you cannot provide medically documented evidence to verify the vaccinations, you must obtain the missing dose or doses.

MMR & Varicella Titer Immunization Requirements

28 Days Apart

Please be aware that both the MMR and Varicella vaccine are administered in two doses - a minimum of 28 days apart, so start this process early to ensure that you will not experience a delay of entry into your program or clinical.
