To receive *Final Acceptance*, students must complete a background check and health requirements through the college's designated document management account. **Do not start a background check until you receive instructions on how to do so.**

“Ohio Revised Code 4731-1-15(D)”

Arrests, charges or convictions of criminal offenses may be cause to deny or limit licensure or employment opportunities in specific careers such as massage therapy. Students are encouraged to investigate these possibilities before applying to the program. For factors the State Medical Board of Ohio may consider when reviewing the results of a criminal record check, and the list of disqualifying offenses, visit the website: [State Medical Board of Ohio > The Board > Disqualifying Criminal Convictions](#)

Compliance will include any required immunizations per current CDC and Ohio Department of Health guidelines.

Massage Therapy students are required to participate in hands-on labs and clinics. Students are not permitted to participate in hands-on activities without completion of the background check and health requirements. Therefore, if time is missed during the hands-on labs or clinics due to an incomplete requirement, the time must be made up on-site.

If requirements are not met by the third week of the full-term fall semester, students must withdraw from the program courses and will be responsible for any costs incurred. If students anticipate they cannot meet the deadline, please contact the Program Director immediately for assistance.
