Grab this corner...

This is a piece of origami paper meant to compliment "Finish the Crane", a speaking event featuring writer/editor Elsa Sjunneson where she opens a discussion about disability and the struggles affected individuals face.

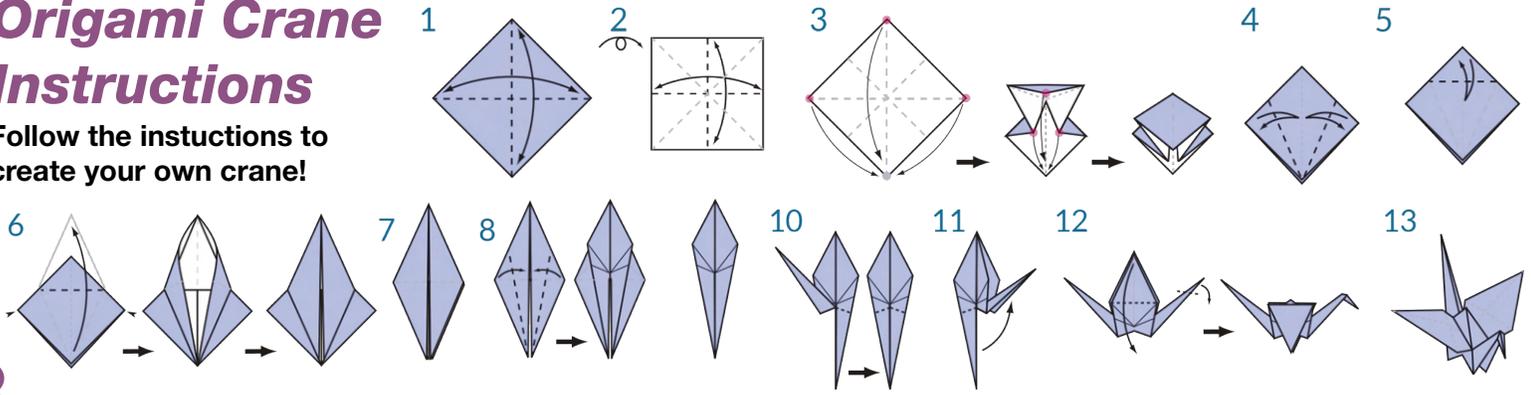

Follow along with the attached instructions to create your own origami crane and let it act as a companion piece to Ms. Sjunneson's story.

Start by cutting out this origami design on the dashed line. Complete step 1 by folding the indicated corners on top of each other.

...and fold it here!
