

# Tri-C Plant Science and Landscape Technology

In 2016 and 2019, the Tri-C team placed **THIRD** in the nation against all participating two- and four-year institutions.

Recognized as the **TOP TWO-YEAR** plant science program since 2014

Program accredited through the  
 NATIONAL ASSOCIATION OF LANDSCAPE PROFESSIONALS

**The Plant Science and Landscape Technology program offers flexible learning options that include:**

**Summer field experience** (paid internship) between the first and second years.

A **balance** of classroom, lab and hands-on practical education.

**Part-time and full-time** options.

## PROGRAM OPTIONS

**Associate of Applied Science** degree with two elective options: landscape design/build or retail garden center and nursery management.

**Landscape Technician Certificate of Proficiency.**

**4 short-term certificates** that can be earned by attending classes for two semesters.
