Overview

Ellucian's Tri-C Grad Plan delivers a powerful, personalized academic planning solution with automated scheduling that guides students along the most efficient path to graduation. Its deep integration with degree audit systems ensures accuracy and compliance, while adaptive, self-correcting plans automatically adjust to meet students' evolving academic requirements.

View Student Plan

When a student launches Grad Plan, they'll be taken to the Student Dashboard. They can access their plans here, along with other useful links to Tri-C Resources.

Courses

Students possess the ability to identify their course preferences: add, modify, drag and drop, change sections, and register for courses. Occasionally, Tri-C Grad Plan may adjust students' plans without taking their preferences into account, typically due to various restrictions such as prerequisites, course availability, credit limits per term, and other factors.

Registration- Student View

The register button will activate once registration opens.

Register for Classes

- Click “change” next to the course section.
- Click “Mark to Register”
- Click on “Register”
- Confirm registration

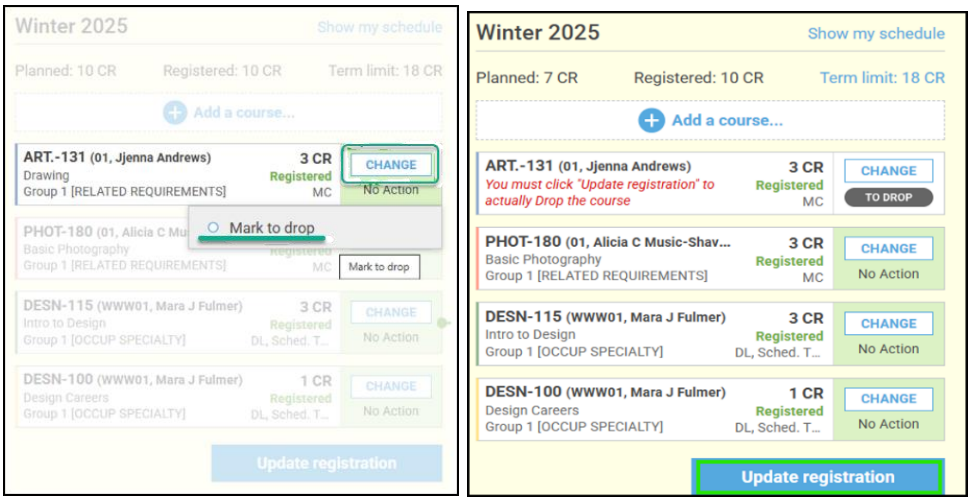

NOTES:

- Courses and sections are dynamic, and so are future recommendations.
- Section data is updated in real time to account for changes in seat availability. **It is important to always validate the plan before trying to register.**

Drop Classes

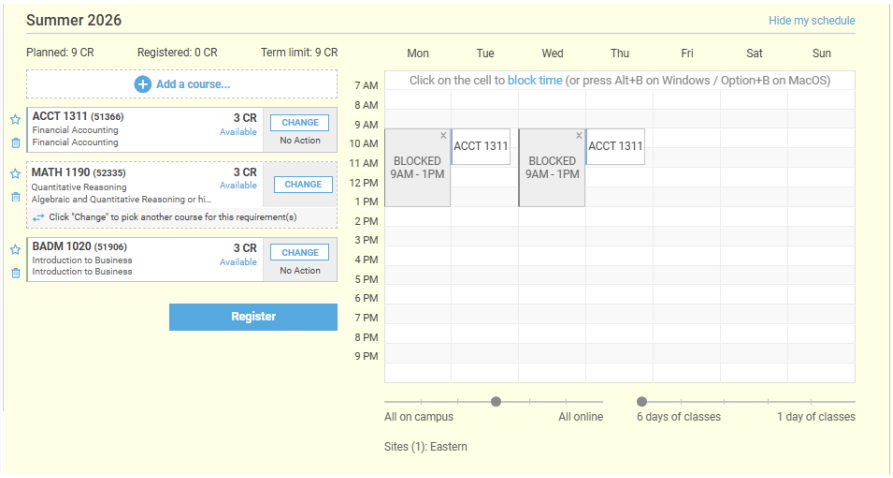

- Click “change button” next to the course section and click “Mark to drop
- Click on “yes”
- Click on “Update registration”

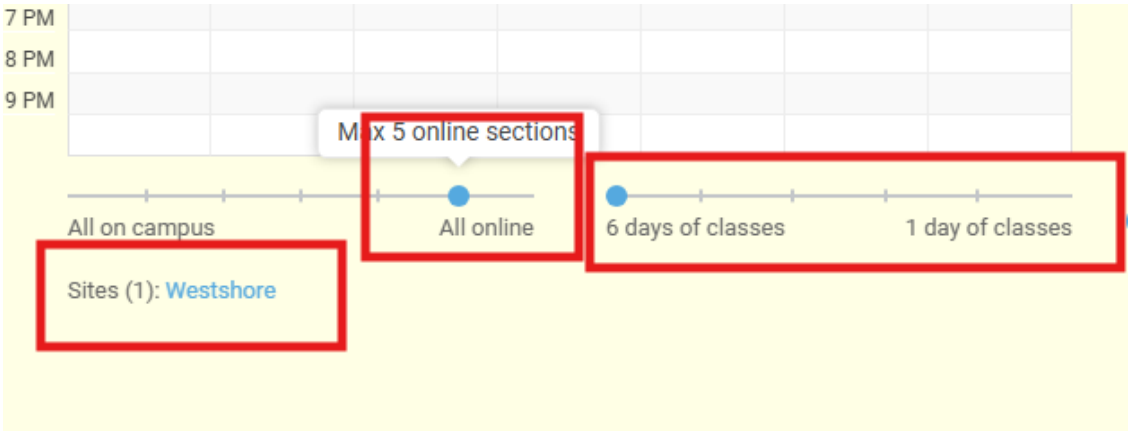

Schedule Preference

When tern registration opens, students can block times, dates in their schedules, move the slider to all Online or All on Campus classes also select the campuses then Tri-c Grad Plan will take this into account when planning courses. The user needs to **'validate' the plan** to see any changes and determine if the graduation timeline will be impacted.

Course Sections

Students have the option to modify the course recommended by Tri-C Grad Plan. To change sections, follow the next steps:

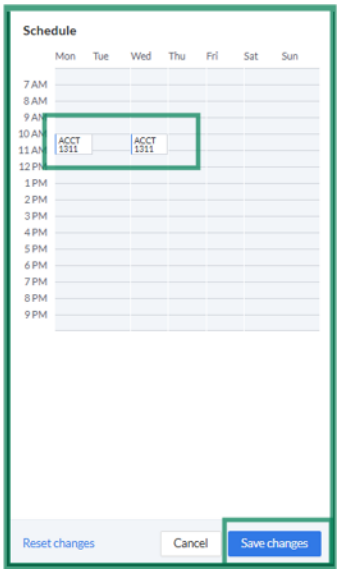

- Click on "Change" within the course box for the registrable term, then, click on "Change Section."

- All available sections for the course will be displayed. Select the preferred section.

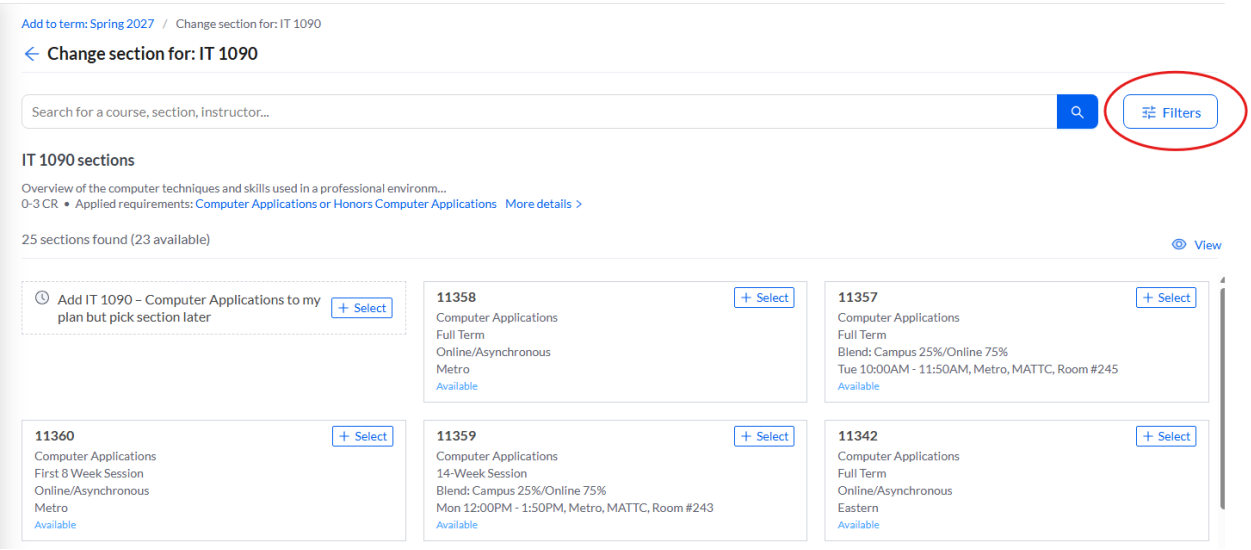

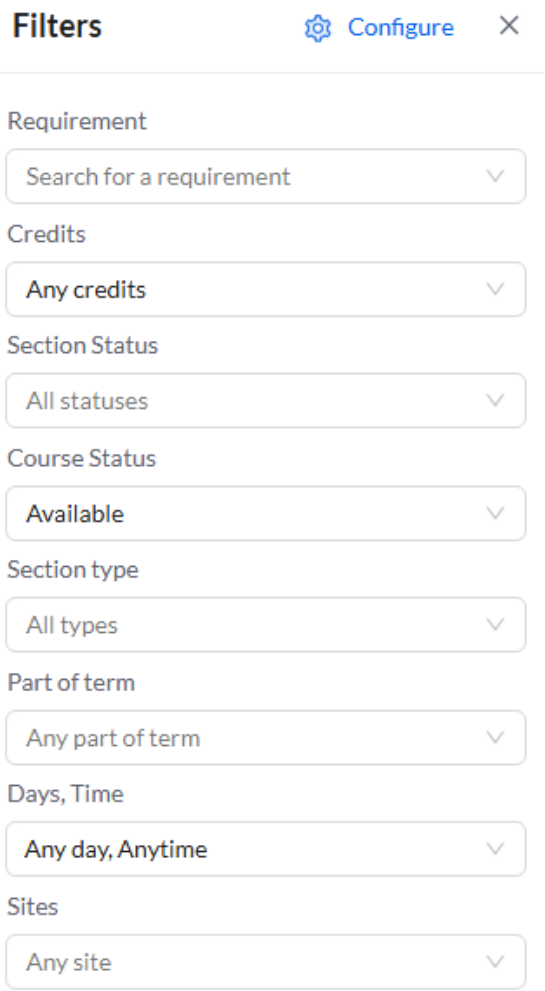

- Click on “Save Changes” to finalize your selection.

Changing courses within a requirement

Tri-C Grad Plan typically makes course recommendations by default. However, when there are requirements in the Degree Plan that can be satisfied by multiple courses, students have the option to select alternatives.

- Identify the course box to be updated.

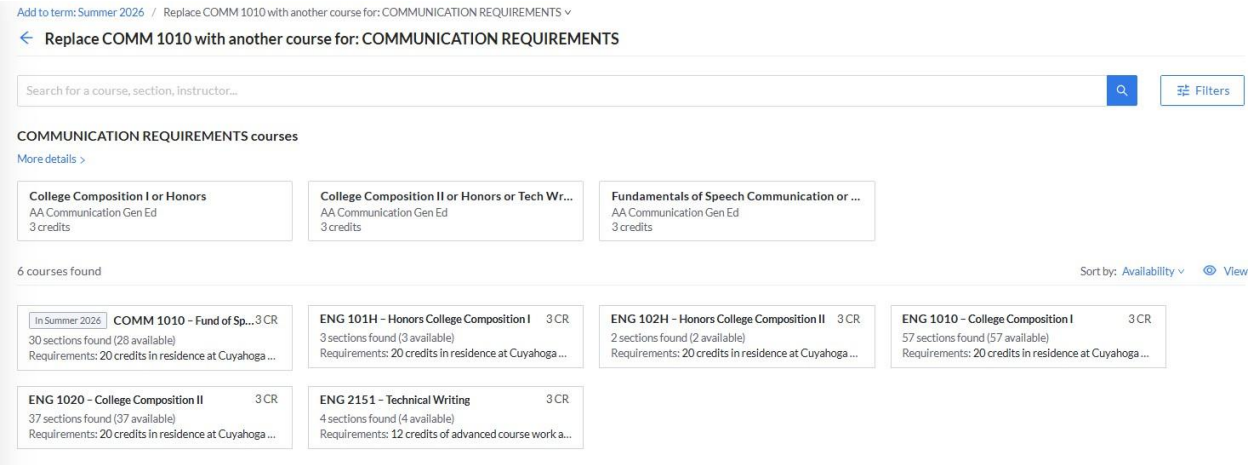

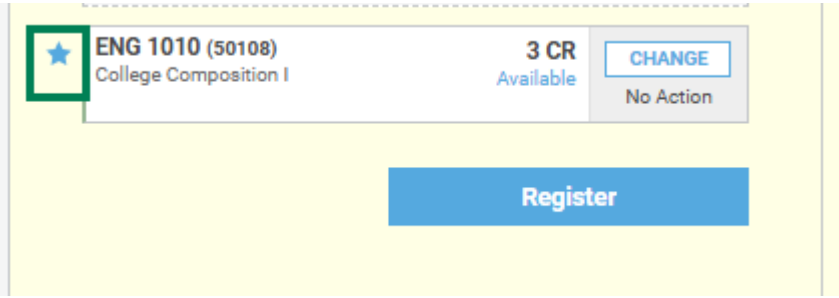

• Click on 'Change,' select 'replace with another course for requirements,' and choose the requirement. For the example below, the requirement description is 'COMMUNICATION REQUIREMENTS' (*Descriptions vary per degree requirements *)

2026 Ellucian. All Rights Reserved - Confidential & Proprietary

- Then choose the preferred course. Students' preferences will be indicated with a blue star.

Placeholders

Sometimes, Tri-C Grad Plan will display the requirement title as 'Placeholder' instead of recommending a course. Students will need to select the Placeholder box and click on 'choose' to see and select the courses that will satisfy the requirement.
