

Interested in ROBOTS?

Do you want to be a part of a team where you learn about robotics while building your communication skills?

Would you like to develop leadership skills, meet new people and have the opportunity to travel?

Are you interested in working with mentors who are professionals in the field of Engineering?

YTA's VEX robotics team includes all types of students from programmers and builders to scouts and graphic artists and everyone in between!

JOIN the Youth Technology Academy's VEX Robotics Team
