## Math Multiple Measures Placement

Instructions for placing students using multiple measures are given below. Multiple measures include ALEKS placement scores and high school measures (high school GPA, last high school math grade and ACT/SAT scores).

- Current high school students (grades 10-12), or those who have graduated high school within the last 5 years, should be placed using their high school GPA and coursework (Table 1) or ACT/SAT scores (Table 2), whichever places them into the highest level course.
- To use Table 1, locate the intersection of the student's high school GPA and last high school math grade. Students must meet the high school GPA and coursework criteria for placement into a particular course.

## GPA Guidelines

- Students must have a weighted or unweighted GPA of 2.5 or greater to be placed using Table 1.
- If a student has a weighted and unweighted GPA, use the higher GPA.

## Coursework Guidelines

- Use completed classes only for which a student has earned at total of at least 1 credit. It may be necessary to look at previous years or semesters to determine the total number of credits earned.
- If a student's last math class is not in Table 1, use the next most recent class that is in Table 1 for which they have earned 1 credit.
- If a student's most recent class has more than one grade, use the most recent grade.
- If a student has a grade of P in their most recent class, use their next most recent class for which they have a letter grade of $\mathrm{A}, \mathrm{B}$ or C and have earned 1 credit.
- Students who have not yet earned full credit for a course should be encouraged to resubmit their transcripts to the college once they have earned 1 credit.
- Students who cannot be placed using Table 1 or ACT/SAT scores must take a proctored ALEKS placement test. This includes CCP students in grades 7-9. Unproctored ALEKS test scores cannot be used for placement beyond the Summer 2022 semester.
- Please contact a math or STEM associate dean if you have further questions regarding placement.

## Courses

| Math 0910 | Basic Arithmetic and Prealgebra |
| :--- | :--- |
| Math 0955 | Beginning Algebra |
| Math 0930 | Essential Skills for Algebraic and Quantitative Reasoning (Corequisite for Math 1190) |
| Math 0940 | Essential Skills for Contemporary Math (Corequisite for Math 1240) |
| Math 0965 | Intermediate Algebra |
| Math 1100 | Mathematical Explorations |
| Math 1190 | Quantitative Reasoning |
| Math 1240 | Contemporary Math |
| Math 1370 | Mathematics for Elementary and Middle School Teachers I |
| Math 1380 | Mathematics for Elementary and Middle School Teachers II |
| Math 1410 | Elementary Probability and Statistics I |
| Math 1420 | Elementary Probability and Statistics II |
| Math 1470 | Modern Mathematics for Business and Social Science I (Business Algebra) |
| Math 1480 | Modern Mathematics for Business and Social Science II (Business Calculus) |
| Math 1490 | Business Probability and Statistics I |
| Math 1500 | Business Probability and Statistics II |
| Math 1530 | College Algebra |
| Math 153 H | Honors College Algebra |
| Math 1540 | Trigonometry |
| Math 154 H | Honors Trigonometry |
| Math 1580 | Precalculus |
| Math 1610 | Calculus I |
| Math 161 H | Honors Calculus I |
| Math 1620 | Calculus II |
| Math 162 H | Honors Calculus II |
| Math 2010 | Introduction to Discrete Mathematics |
| Math 2310 | Calculus III |
| Math 231 H | Honors Calculus III |
| Math 2410 | Introduction to Linear Algebra |
| Math 2520 | Differential Equations |
