The Upward Bound Program

Introduction

We are excited that you will be part of another exciting year with the Cuyahoga Community College Upward Bound Program. As a participant in the program, you should strive to fully participate in all program activities. In return, you will receive an academically challenging pre-college experience that will prepare you for the demands of college life.

What is Upward Bound?

Upward Bound is a college-preparation program for high school students. It is designed to motivate students and develop within them the skills necessary for success in education beyond high school. Upward Bound is one of seven national federally funded TRIO programs that are designed to help high school students develop academic skills and motivation needed to enter college and receive a college degree.

We are very pleased to offer encouragement in personal growth and development by helping the student discover self-worth, uniqueness and individual strengths. Participants receive academic-enrichment classes and tutoring to strengthen skills which need further development, counseling and encouragement to explore careers and higher-education opportunities, and exposure to new experiences through a variety of cultural activities.

Benefits of Upward Bound

Upward Bound strives to provide a challenging, creative, and supportive environment to encourage participants to believe in their own potential and open their minds to the many choices and opportunities available to them. Through the development of academic skills, interpersonal skills, motivation and a positive self-concept, participants become involved in the larger world where more choices exist and their personal power is increased. Participants also obtain assistance in the development and exercise of leadership skills.

Additional benefits are in the form of stipends. Stipends are monetary awards for attending and participating in program activities and services. Students receive \$8/week for participating in weekly academic-enrichment activities and \$8 for attending each Saturday seminar.

Program Components

- **Academic Year Component**

Students participate in weekly academic-enrichment and tutoring sessions to develop their skills in math, science, writing, and reading. Monthly Saturday Seminars feature guest speakers, special topics, and leadership activities. **Currently those opportunities will be provided virtually.**

- **Summer Enrichment Institute**

The Summer Enrichment Institute is a six-week, non-residential, intensive, academic-enrichment program designed to simulate a college experience. From June to July, students attend the Institute for five days a week on the college's Metropolitan campus. The Institute also incorporates cultural and social activities to assist participants in developing their personal skills and increase their motivation to attend college. Like the Academic Year component, participation in the Summer Enrichment Institute is a requirement.

- **The Bridge Component**

Through the Bridge program, graduating seniors can enroll in up to two college courses, in the Ohio Transfer Module, free of charge, at Cuyahoga Community College. Credits earned in the courses are transferable to 2- or 4-year academic programs. The experience assists students in making a smooth transition from high school to college.

Academic Year

The Academic Year component is the most critical part of the program. To help you accomplish the goals you have established for yourself, you will be provided with a full scale of services and activities that will help you advance academically, grow personally and identify realistic and attainable college and career goals.

The Academic Year component begins in the Fall of the school year and ends in May of the following year. During the year, you will receive the following services and activities:

- Academic Tutoring in Math, Science, English
- Individual & Group Advising on College, Career and Financial Aid Options
- Individual Academic Plan
- SAT/ACT preparation
- College and Career Readiness
- Daily Bus Tickets and transportation to and from all Upward Bound sponsored events (when applicable)
- Virtual College Tours (In-State & Out-of-State)
- Monthly stipends

Academic Enrichment

After-school Academic Enrichment (AE) and Saturday Seminars are interactive, academic-based activities complete with tutoring in math, science, and English. They also incorporate proficiency preparation, counseling and advising, career preparation and student development and leadership.

Attending Academic Enrichment

You are required to attend the Academic Enrichment classes throughout the week. It is strongly encouraged that you attend a minimum of 3 virtual sessions . You or your parent or guardian should call the Upward Bound office at (216) 987-4958 if you are going to be absent. At every session, we encourage you to have your homework assignments or study materials.

Educational Resources

A variety of online academic programs and basic school supplies will be available for students. **Students will utilize Tutor Ocean to access the tutoring platform. <https://ub.tutorocean.com/home>.** From this platform students will be able sign up for tutoring sessions, special activities and student advising. Students can “chat” with tutors and Upward Bound staff via the TutorOcean platform.

Stipends

- Upward Bound bases the amount you receive in your stipend on the times you attend your Academic Enrichment services and Saturday Seminars.
- Your class participation and good behavior factor into whether you will receive a stipend.
- You will receive \$2.50 for each tutoring class or activity (excluding student advising) that you participate in.
- You will receive \$2.50 for every 2 lessons completed in OnTrack
- You will receive \$10 for Saturday seminars.
- Four weeks and one Saturday Seminar per month add up to the total of \$40.00 which is the maximum stipend you can receive per month.
- Stipends will be loaded on to a Key Bank debit card monthly.
- Students **MUST** contact the Office Assistant within 30 days of NOT receiving their stipend

When a new student starts attending the program, stipends are held for the first 60 days.

After two months, new students will begin receiving their stipend and the amount that added up from their previous attendance will be released.

The benefits of attending Upward Bound are not just about the stipend.

- *You receive tutoring in your school subjects.*
- *You receive career information and counseling.*
- *You receive opportunities to visit colleges and cultural events*
- *You receive college planning, FAFSA assistance, and scholarship information*

The stipend money you receive for four years of attendance will add up **if you save it**. You can put away a nice sum of money to use for college!
