Good Afternoon Ward 6 Residents. Thank you for supporting CIRI for another year!

I wanted to update the residents that Architectural Fiberglass in Ward 6 is hiring. They recently purchased their biggest competitor and are now consolidating operations here. They anticipate hiring at least 10 people in their shop.

I have referred the company to workforce partners in the area, but I know folks often call the council office for job prospects. So I am passing on the good news and this link to the company's contact page (<https://www.fiberglass-afi.com/contact.htm>)

FOR IMMEDIATE RELEASE

Ohio Turnpike Commission's New Training Program Seeks Diverse Candidates for Maintenance Roadway Positions

The new program provides Commercial Driver's License (CDL) education and training at no cost to the trainee.

BEREA, Ohio (March 16, 2022) – The Ohio Turnpike and Infrastructure Commission has launched a new two-year apprentice program designed to increase diversity and inclusion among the ranks of its maintenance roadway workforce.

Eight apprenticeships (one per maintenance building) are available through the turnpike commission's first-ever [Maintenance Worker Class II Roadway Trainee](#) development program, which requires the trainees to sign a two-year agreement.

The entry-level program pays nearly \$23 per hour and provides Commercial Driver's License (CDL) education and training at no cost to the trainee. Other benefits include healthcare, pension, life insurance, paid leave and holidays, work boot stipend, and the potential for a full-time career with growth and advancement as a turnpike commission employee.

"The new diversity and inclusion program provides us with an opportunity to recruit talent from underrepresented groups, especially individuals from disadvantaged backgrounds," said Ferzan Ahmed, executive director of the turnpike commission. "The program will provide trainees with valuable skills and work experience in the highway maintenance field required to pursue a full-time career at the Ohio Turnpike or with another employer."

The trainee selection process will be based on the applicant's background, competency, demonstrated ability to learn the required skills, and aptitude to obtain a CDL within two years from their date of hire.

Trainees who are retained and complete the required duties may graduate from the program after completing the first year and would be eligible for permanent full-time Maintenance Worker Class II positions.

Applicants can select a preferred workplace location from the turnpike commission's eight maintenance buildings located in the Ohio cities of (west to east): Pioneer, Swanton, Elmore, Castalia, Amherst, Richfield, Windham and Canfield.
