Workforce, Community & Economic Development

INDUSTRY CREDENTIALS = HIGH SCHOOL DIPLOMAS

Whether a student's aspiration leads them to college or the workplace, a high school diploma is simply the doorway to self-sustainability.

As Ohio's oldest and largest community college, Cuyahoga Community College (Tri-C®) is proud to announce its *industry recognized certification curriculum* as a pathway to high school graduation.

Students outside of a career-technical education program, required to take the Ohio Standards Test (OST). Now have an option for graduation requirements that include engaging hands-on learning.

Contact Tri-C to learn to learn more.

Why Tri-C?

Cuyahoga Community College is committed to addressing the regions technical gap and continues to engage the youth in grades 9-12 in cutting edge STEM instruction. Tri-C fosters strategic partnerships with programs specifically built around the needs of employers within the industry. Students learn new training systems that prepares them for the future workforce in the latest technology. We offer many of the qualified industry-recognized credentials for the demanding
