Bluestone Child & Adolescent Psychiatric Hospital is seeking dynamic healthcare professionals interested in bringing psychiatric care to a new level for children ages 6-18. Working in a brand new, state-of-the-art facility, Bluestone staff will have a unique ability to direct patient care, employ best practices, and join a care network that promotes the best long-term outcomes for patients. With just 12 inpatient beds, Bluestone offers an environment that enables the care team to directly impact decision-making while working together to provide the highest quality patient care. Leveraging community relationships, Bluestone can also provide seamless step down and wraparound services to ensure patients and their families are connected to needed supports and achieve lasting success. These unique features, coupled with a generous benefits package, offer a great career opportunity for committed healthcare professionals.
