

**Cuyahoga Community College  
Community Health Worker Program  
Military/Armed Veterans**

This procedure pertains to any student with experience in the armed forces of the United States, National Guard, or any reserve component:

1. Cuyahoga Community College will thoroughly review individual's military education, background, and skills training.
2. Program Administrator or other authorized individuals will determine whether military training is substantially equivalent to the Community Health Worker program curriculum established by the Ohio Board of Nursing.
3. The Community Health Worker student must submit official records or documentation as evidence of applicable military training and/or education prior to the start of class.
4. Once reviewed, students may be able to waive certain components of the Community Health Worker program if proven to have substantial training in these areas.
5. This information is available on the Tri C Community Health Worker webpage.
