Class A or Class B CDL Training

Frequently Asked Questions:

How old (or young) do I have to be to get a CDL?

You must be 21 years old. (18 years if all commercial driving is done within Ohio. There is no upper age limit if you can pass the Department of Transportation physical.)

Can I use an Ohio CDL out-of-state?

Yes. It is accepted throughout the USA, Canada and Mexico.

Do I have to have a driver's license to get the training?

Yes, you must have a current, valid State of Ohio Driver's License to participate. Any of the following may disqualify you from obtaining a CDL in Ohio:

- If you possess a license from any state other than Ohio.
- If you are currently subject to any disqualification of your commercial driving privilege from Ohio or any other state.
- If your license is currently suspended, revoked, denied, or cancelled.

What about a criminal history?

Cuyahoga Community College does not require a background check to participate in the CDL training program. For employment, employers may impose additional standards and/or higher age requirements that may include a background check. We will work with each person individually to help find opportunities for them and there are options for most people. For more information please see the [Limited Opportunities](#) form attached that outlines issues that may present challenges for you in obtaining employment.

Can my Ohio CDL be suspended or revoked?

Yes, there are many reasons that your Ohio CDL can be suspended or revoked, just like any driving license. Improper use of alcohol or drugs and traffic violations are the most common.
