Black Rocket Summer Camps

BLACKROCKET
Launch Your Creativity

Launch Your Creativity

The magic comes alive in every student when they are empowered to be as creative as they were born to be! Black Rocket has 20 years of experience designing courses in the science, technology, engineering, arts and mathematics (STEAM) fields. Every program is powered by the child's innate imagination and designed to bring their ideas to life in a fun, hands-on learning environment.

Make Your First 3D Video Game

In this Black Rocket classic, you will go well beyond the limitations of the traditional 2D game design classes and create an immersive 3D world. Students will learn the physics behind 3D games, explore beginner event scripting, level design, controlling the flow of gameplay, and storytelling. Student projects will be available on a password protected Black Rocket website to share with friends and family projects are only compatible with Windows devices.
